

Name:	tado GmbH
Foundation:	2011 in Munich
Headquarter:	Sapporobogen 6-8 80637 Munich Germany
Company Description:	tado° is the European market leader in intelligent home climate control solutions. The Smart Climate Assistant uses features like Geofencing, Weather Adaption and Open Window Detection to save up to 31% on the annual energy bill. With its smart thermostats for heating and the Smart AC Control for cooling tado° reshapes the way energy is consumed at home. Having raised over €50m in venture funding and currently employing 150 employees, tado° is active across Europe and the US.
Management Team:	Toon Bouten, CEO Christian Deilmann, CPO Leopold von Bismarck, CMO Johannes Schwarz, CTO Lars Merle , CFO/COO
Mission:	Reducing home energy consumption through the use of smart technology. State-of-the-art products are designed to save energy while enhancing comfort and convenience at home.
Vision:	tado° wants to bring smart climate control to every building in the world.
Product range:	Smart Thermostat to connect heating systems Smart Radiator Thermostat to connect radiators Smart AC Control to connect air conditioners
Compatibility:	The tado° smart thermostat can connect with almost any heating system from any manufacturer across Europe. The Smart AC Control works with almost all air conditioners with a remote control.
