

tado°: Making Air Conditioning Smart

Control your AC with your phone, voice or simply let tado° take care—comfort and savings guaranteed.

Want a smart thermostat but don't have central air? The tado° Smart AC Control works with the tens of millions of remote control AC units used by homeowners and apartment dwellers across the US and the world – including mini splits, portables and wall units.

Simply download the free app for iOS, Android, or Windows and let tado° do the rest. The tado° Smart AC Control uses the geolocation technology already on your phone to automatically adjust the temperature based on your proximity to home. It conserves energy while you're away, yet makes sure it's perfectly comfortable the moment you arrive. Change of plans? No problem. The tado° Smart AC Control doesn't get tripped up when your habits change; it responds to your needs in real-time. Already have other smart home devices? Great! tado° integrates seamlessly with them through major platforms, such as Amazon Alexa, IFTTT and soon Apple HomeKit too.

Key Features:

- **Geofencing:** Automatically controls the temperature based on your location
- **Saves money:** Reduces your AC costs by up to 40%
- **Use from anywhere:** Easy access from anywhere, anytime with the tado° app
- **Voice control:** Hands-free control with Amazon Alexa and soon Apple HomeKit
- **Minimalist design:** Capacitive touch display only shows info when you want to see it

The tado° Smart AC Control is available for \$179 at major US retailers including Home Depot, Best Buy, Brookstone, and online at www.tado.com or Amazon.com.
